

TRADEZONE
COMMODITIES

As Tradezone, we are partnering with origination and trading companies since 2014. We have started with agricultural commodities of pulses and cereals covering the Blacksea region from our Istanbul office.

Over the few years number of commodities - and scope - handled has increased and we have established our second office in London in 2017 with interest to increase our business line in Biofuels.

We are now serving geography of over 40 countries and counting.

We continuously look for new trustworthy suppliers and look forward to building long term partnerships.

How do we work?

Brokerage & Trade

We partner with trading offices from varied expertise so that we can match the needs at best.

Transportation

We support our partners with our logistics solutions either it is bulk or containerized cargo so that they can get the best costs.

Consulting

We take pride to help companies built their skills in new products and markets so they can get the most value.
